

### FeasyBeacon FSC-BP109 Work Distance Test Result:

**IOS System: Brand iPhone 6s Plus Up to 4000M**

**Android System: Brand Smartisan YQ601 Up to 1000M**

## Notice:

1. The actual work distance will vary from different smartphones.
2. The test environment should be no obstacles, in very open space.
3. In order to speed up the test progress, we suggest using our “FeasyBeacon” for configuration. Physical Web and Google Nearby are recommended for beacon notification receiving. If you use other APP, we cannot guaranty the RSSI data’s accuracy.
4. The beacon should be place as height as it can be, for a better work performance (More than 1.5m height is suggested)
